IN THE CLAIMS

Please amend the claims as follows:

49. (Amended) A computer readable medium encoded with one or more computer programs for enabling acquisition of a set of content data and display of an image or images generated from the set of content data on a display device during operation of an attention manager, comprising:

acquisition instructions for enabling acquisition of a set of content data from a specified information source;

[user interface installation instructions for enabling provision of a user interface that allows a person to request the set of content data from the specified information source;]

content data scheduling instructions for providing temporal constraints on the display of the image or images generated from the set of content data; and

display instructions for enabling display of the image or images generated from the set of content data.
